# Norway

**1,278,898\*** animals used in research, testing and education

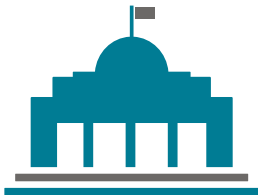

65%

I am **very concerned** about the use of animals in scientific research, testing, and education.

67%

**More needs to be done** to accelerate the full replacement of animal experiments.

64%

Norway's Government should commit to transitioning to scientific research, testing, and education **without the use of animals**.

64%

Norway **should be a global leader** in moving towards science and innovation **without the use of animals**.
