# Switzerland

**572,069\*** animals used in research, testing and education

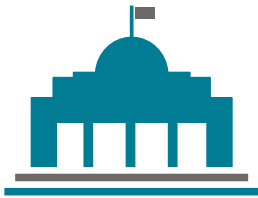

66%

I am **very concerned** about the use of animals in scientific research, testing, and education.

71%

**More needs to be done** to accelerate the full replacement of animal experiments.

68%

Switzerland's Government should commit to transitioning to scientific research, testing, and education **without the use of animals**.

68%

Switzerland **should be a global leader** in moving towards science and innovation **without the use of animals**.
